Mercy is home to the newest NICU in the area providing the most cutting-edge model for the 21st Century.

Mercy Medical Center's NICU is setting a new standard for care. Each NICU suite is private and specially-equipped for your baby's needs. It's a truly family-centered approach—allowing you to be near your baby at all times, and the opportunity to be an important part of his or her care.

They say that a camera adds 10 pounds. Well, our NICU suites really are as big as they appear. In fact, we offer the biggest NICU suites in the area for you and baby.

A This is Dr. Nick Sherrow. He joined us recently, bringing additional NICU experience and expertise. Our NICU team is led by Dr. Roger Allen, the most experienced neonatologist in Cedar Rapids.

B The area's only NICU with private, spacious bathrooms with whirlpool tubs in each suite.

C Parents can relax and take advantage of our comfortable pullout sofa bed.

D Beautiful, soft blankets for you to snuggle in. One of the many amenities available to you at no extra cost.

E Karen Neuberger gowns that allow you to intimately tuck baby in close to enhance bonding.

F Our suites feature fully-equipped special-care NICU beds, with built-in scales so babies do not need to be disturbed to get weighed. A central monitoring system is in place for constant and close observation.

G Babies aren't on a 9-5 schedule. That's why Mercy offers 24/7 room service.

H Stay connected while you're here. Enjoy free wireless internet on your own laptop or use one of ours.
