

Supporting Family Caregivers during COVID-19

During this difficult time, the Family Caregivers Center of Mercy remains a resource and support for family members caring for an adult living with a chronic condition. While the Center is not offering in-person support, we are available by phone or email.

You may reach the Family Caregivers Center of Mercy, by calling (319) 221-8866 or emailing fcc@mercyare.org and provide the following information:

- Caregiver's name, phone number and address
- Care receiver's name and chronic condition
- Reason for calling

The Family Caregivers Center will attempt to answer the phone in person from 8 a.m. to 4:30 p.m. Monday through Friday. If a message is left, the Center will contact the caregiver as soon as possible-hopefully the same day-to discuss the situation and provide support.

Please contact the Family Caregivers Center at (319) 221-8866 or email fcc@mercyare.org with questions.
