

CT- Limited Chest

To Schedule: (319) 861-7778

Questions about Procedure: (319) 398-6050

What is a CT Scan?

CT scanning—sometimes called CAT scanning—is a non-invasive, painless medical test that helps physicians diagnose and treat medical conditions.

CT imaging uses special X-ray equipment to produce multiple images or pictures of the inside of the body and a computer to join them together in cross-sectional views of the area being studied. The images can then be examined on a computer monitor or printed.

CT scans of internal organs, bone, soft tissues and blood vessels provide greater clarity than conventional X-ray exams. A CT scan usually takes between 15-30 minutes.

Preparation:

No preparation.

PLEASE BRING THE FOLLOWING TO YOUR APPOINTMENT:

A PHOTO ID TO VERIFY YOUR IDENTITY

A LIST OF CURRENT MEDICATIONS YOU ARE TAKING

Parking/Registration:

Park in the Mercy Medical Center 10th Street Parking Ramp, located at the corner of 10th Street and 8th Ave. SE. You will be pre-registered, so you can proceed to **Ground (G)** level and follow the signs to “Radiology (X-Ray),” also located on **Ground (G)** level.

If you are having this procedure at the Mercy Health Plaza Imaging Center:

The Imaging Center is located next to Wehrenberg Galaxy Theatres within the Mercy Health Plaza, 5264 Council Street NE. You will be pre-registered, so you can proceed to the Reception desk.

Procedure Results (Who interprets the results):
